Dear Parent or Guardian,

Our school has purchased a subscription to an online course and curriculum program called Edmentum Courseware. As a part of our subscription, your student can access Courseware anywhere that internet access is available. Courseware has site-wide security features in place to protect your student's personal information.

Using Courseware from Home
Courseware is completely web-based, which allows students to access the program from any computer with an internet connection and a standard web browser. Unit activity results are automatically recorded for teacher review.

The program consists of courses, and each course is broken up into units. Each unit has activities such as pretests, tutorials, practice activities, discussion posts, mastery tests, and posttests.

If your student needs additional support getting logged in and navigating key areas of the program from home, we've included instructions here.
