### RFI RESPONSES:

---

- RFI #1** **Question:** The schedule is not clear. We do not know what “as soon as possible” means, nor does this coincide with boys and girls swim season. We are in boys swim season right now. Please provide a schedule to be used by bidding contractors. Considering we are in 2025 now, and most of us have a full work schedule for the summer of 2025, it is very important to understand the Owner’s expectation of how this schedule works. If the project is being awarded based on simply “who can get to the work” I believe that will be very problematic for the Owner. Please advise.
- Response:** The owner is looking for bidders to propose a timeline for the work, which is desired to be completed expeditiously and with consideration for impact to facility operations and the availability of labor and equipment. It is acceptable to the owner that one pool at a time may be shut down if the contractor’s proposed timeline falls within school swim seasons. Bids will be evaluated considering a variety of factors to determine the best value for the district. See attached MHSAA schedule of 2025-26 swim seasons for reference.

**RFI #2**

**Question:** The bid form you propose seems to allow for substitutions at time of bid, which is in direct conflict with the pool specification. If alternate equipment is being proposed and or allowed, we ask that the RFI and substitution procedure happen pre-bid so all bidding contractors have benefit of that information. Substantial discussion has gone into defining the products that the Owner wants. You are going to expose them to alternates that may not meet basis of design doing it this way and are going to cause a lot of confusion post bid.

**Response:** Any substitutions must be submitted in accordance with section 002600 - Procurement Substitution Procedures for review prior to inclusion as an alternate product on the bid form. See also revision to Section 002600.
